SPRING 2020

APRIL 2019 - Overwhelming Generosity

Chris Shears has been kind enough to make all of our carers some beautiful new scrubs (bottom left) that she has handmade herself! As a thank you, the carers came together to gift her a hamper with lots of goodies to show their appreciation.

Kate Pegg (bottom right) has also been making us face masks to ensure we are constantly stocked up. Another superwoman doing her part and spreading kindness, not coronavirus!

We'd like to say thanks to all of you who have done their part to help by going out of their way. We really do appreciate it and most of all, so do our carers and clients!

Stay safe everyone and stay at home. We look forward to updating you with our latest newsletter next season.

Carers of the Month

For March, April and May's Carer of the Month, we would like to dedicate it to...all of you! The company would not be what it is without all of your help. All of our staff have gone above and beyond in their level of dedication.

This thank you also includes non-carer staff who have kept things running smoothly whilst working from home.

We understand that that many of you have been facing difficult situations in your own personal lives, but that is why we want to take this opportunity to congratulate you for considering the vulnerable and less able during this lockdown period.

Thank you Dementia Care TLC staff!
